

# The Janesville Daily Gazette.

VOLUME 25

Entered at the Post Office at Janesville, Wis., as second-class matter.

JANESVILLE, WISCONSIN, FRIDAY, APRIL 22, 1881.

Published Every Evening Except Sunday, at \$7 a Year.

NUMBER

The general impression prevails that the floods have done their worst, and from this point the waters are expected to subside.

Immigrants are still flocking from Europe to this country. Over 15,000 have arrived in New York since last Monday, and 150,000 since January 1.

The whole amount of capital invested in the iron and steel industries of the United States in 1880 was 230 millions of dollars. In 1870 it was only 121 millions.

The Madison Democrat, speaking about the revision of the bible says, "Give us the old book." We hope some one will do that thing. The Democrat needs it as much as any paper we read.

There are already three cases of cholera in New York. If there is a city on the American continent which is in a condition to breed epidemic diseases, it is New York. It is now the filthiest city between the two oceans.

On Thursday a motion was made in the Senate to go into executive session for the purpose of disposing of some of the President's nominations, but the motion was lost by the same old vote—20 to 21.

Because the Democrats could not succeed in buying Mr. Mahons, they charge the Republicans with getting the advantage of them in that transaction. The only way the Democrats have of covering up their own tracks is to cry "fraud."

Since Ben Butler returned from Cuba he has been interviewed, and he thinks the Democrats will soon be in a condition to carry the country. It will be remembered that Butler has never guessed right on any political question since the days when he was a stalwart Republican.

Wisconsin, under the recent census, is the sixth in rank in the production of iron and steel. There are not many who supposed that this State occupied so important a position in the production of iron and steel. The State was numbered 12 in 1870, and in 1880 produced 178,000 tons, and Pennsylvania produced about one-half of all the iron and steel products of the United States.

If reliance is to be placed in the Washington dispatches, the condition of things is getting worse. The speech of Mr. Frye, of Maine, stung the Democrats to the quick, and there is now a general disposition among them to make a decided war against the administration. Whether this will defeat the confirmation of Robertson is very much in doubt. The Democrats think Mr. Frye reflected the sentiment of the President in the attacks of the former on the Democratic party and the Solid South, and for this reason they propose to throw against him all the opposition within their power. This, with Mr. Conkling's hostility toward the President, very much embarrasses the administration.

There never was a time when Mr. Eli Perkins was not in a hopeful frame of mind. Naturally, he looks on the bright side of almost every subject, and this spring he seems to be more hopeful than ever. During the past three or four weeks he has traveled through several of the Northwestern States, and from his own statements has made diligent inquiries and close observations regarding the condition of the wheat crop. He says the wheat crop of the Northwest will be much larger and better than last year; that the winter wheat crop will be first rate; that the spring wheat promises to be as good as ever; and that the principal croaking is done by the bear croakers who are interested in spreading the report that the crop of 1881 will be a failure. He says the sowing in Minnesota is as early as usual, and in this statement Eli is not far from the truth. The Milwaukee Sentinel publishes some "comprehensive correspondence" to show that nothing but gloom hangs over the wheat crop, that crops are going to the dogs, and a general calamity will be the result. Such correspondence is a farce. The letters attempt to show that the seedling is from three to five weeks later than usual in all sections. There is not a particle of truth in this statement as will be learned from the table published in the Gazette a few days ago regarding the time of sowing wheat for the past twenty-four years.

A savings bank under the new law in this State (passed by the Legislature of 1876 and adopted by the people in 1877) will be opened in Beloit on Saturday. This is the first bank of the kind established in this State under that law. The system is that which prevails largely in New York, Massachusetts, and several other States. There is no capital, and no stockholders, and no salaries. Whatever there are of profits, belong to the depositors. Mr. S. T. Merrill, one of the oldest, as well as one of the most respected, and solid men of Beloit, was a member of the Legislature of 1876, and was instrumental in getting the amendment to the constitution adopted that year which provides for the establishment of savings banks under this system. He has been elected president of the bank, and Mr. John A. Holmes, will be treasurer. The officers serve without pay, and the treasurer gives a bond, but otherwise the depositors have no security. They must depend upon the honesty of the officers, and honest men are better than capital. The bank will be opened on two days of each week—Tuesday and Saturday—and for only two hours each day. Deposits of

25 cents and upwards will be received, but no one person's deposits can exceed \$1,000. Semi-annual interest of 2½ per cent will be allowed.

These banks are doing an immense business in the Eastern States. In New York the deposits in these "unsecured" savings banks have reached 454 million dollars, and in Massachusetts 225 million, and none of the officers have absconded with any of the funds of the banks. The Gazette will watch the progress of this new bank at Beloit with much interest, and hopes it will prove a boon to the working classes in that busy city.

A Twelve Year Old Beloit Boy Kicked and Killed by a Horse.

Other Interesting News and Miscellaneous News Items.

## MYSTERIOUS MOVEMENTS.

WASHINGTON, April 21.—Considerable comment was caused about the Senate chamber this afternoon by mysterious movements in the neighborhood of the Vice President's room. General Arthur and Senator Jones, of Nevada, were together for several hours in the Vice President's apartment, and many Senators were sent for to visit them. What the object of the conference was is not known, but it is naturally surmised to have some bearing on the question of holding an executive session for the confirmation of appointments. It will be known to-morrow whether or not a caucus shall be held.

## FARRAGUT STATUE.

WASHINGTON, April 21.—By order of the secretary of the navy, Commander John C. Watson will escort Mrs. Farragut from New York to Washington to be present at the unveiling of the statue of Admiral Farragut. Mrs. Farragut will be the guest of President and Mrs. Garfield. Commander Watson was a war-time friend of Admiral Farragut, and was with him at the capture of Mobile. Mrs. Farragut will arrive in the city next Saturday.

## C. M. & ST. PAUL.

MILWAUKEE, April 21.—The annual report of the Chicago, Milwaukee & St. Paul road has been issued to-day. Total income for 1880, \$13,083,118.61; gross expenses, \$7,742,425.68. Net earnings, \$5,340,692.93; increased expenses over 1879, \$2,080,293.80; increased expenses over 1878, \$2,262,631.72; net increase in earnings, \$804,668.11; total value of property, \$7,980,744; balance of income account Dec. 31, 1880, \$1,213,213.16; amount of common stock, \$8,551,261; amount of preferred stock, \$1,204,483; mortgage bonds, including \$3,000,000 of pre-existing mortgage debt on purchased roads, \$70,172,000.

## BEACONSFIELD'S FUNERAL.

Beaconsfield's Directions for His Funeral.

LONDON, April 21.—The following is the clause in Lord Beaconsfield's will relating to the disposition of his remains: "I desire and direct that I may be buried in the same vault in the churchyard at Henghden in which the remains of my late dear wife, Mary Anne Disraeli, created in her own right Viscountess Beaconsfield, were placed, and that my funeral may be conducted with the same simplicity as hers was."

## KICKED AND KILLED.

BELOIT, April 21.—Frank Leech, a boy about 12 years old, whose parents reside at Evanston, was kicked by a horse last Friday, at White's, two miles east of the city. The base of the skull was torn off and a tea-cup full of brains oozed out. He lived until this morning. His remains were taken to Evanston to-day.

## BECAUSE OF JEALOUSY.

MILWAUKEE, April 21.—A daughter of C. T. Rafe, a farmer of the town of

Stetin, near Wausau, committed suicide last night. Her lover asked her to go to a ball with him, and she accepted. He failed to keep the engagement, and she went alone. She found the trunk left behind another charmer, and this worked her up to such a pitch that she went home and chewed up a box of matches, and was found dead in her bed.

## A RAPID CURRENT.

MILWAUKEE, April 21.—The danger arising from the washing away of the dam at West Bend has passed without causing any extraordinary damage. The swell reached North Milwaukee at 3 this morning, sweeping broken ice and heavy timbers along at the rate of about ten miles an hour. The dam at the head of the navigation in this city bore the brunt, and prevented serious consequences. After the onset, the south end of this dam washed out to a distance of twenty feet or more. The augmented flood raised the stream below fully one foot and a half, but this rise was for a brief time only, the waters receding to the average surface line of Wednesday. The current now is about seven miles an hour, with large cakes of blue ice and masses of timber rendering the stream quite dangerous to shipping. It is estimated that \$25,000 will cover the damage in the city by this unusual freshet.

## ROCKFORD.

ROCKFORD, April 21.—The worst is now doubtless over, for the water has fallen several inches since morning. At 7 o'clock the west end of Leonard's upper river ice house gave way, and was washed down stream, together with a large quantity of ice. Mr. Leonard's loss will reach about \$3,000. H. L. Wilson's house is damaged to the extent of \$800. Just below the dam on the east side of the river the water has washed away a large portion of the embankment under the track of the Chicago & Iowa company, but trains are still running. On the water-power everything remains the same except at the establishment where the proprietors have put in engines, which places are now running. N. C. Thompson, in conversation, stated that everything on the power would probably be in good working order by Monday morning, when 1,000 men will again commence work, having been idle a week. As the water falls we are able to see what damage has been done, and it is quite likely that some startling facts will yet be revealed.

## ACCIDENTALLY SHOT.

MILWAUKEE, April 21.—R. F. Copeland, a traveling salesman for W. & J. G. Flint, spice dealers, Milwaukee, was accidentally shot and killed near Stoughton this afternoon. Copeland leaves a family residing in Waukesha.

## MILL GONE.

MADISON, April 21.—The lakes here are still rising. The low land is still flooded, and the bridges in various localities round about damaged. The mills near Stoughton were carried away to-day. It is feared the dam at Stoughton will be carried away.

## Nutritious Food.

The names of Prof. Horsford and the Rumford Chemical Works (Providence, R. I.) have become so identified with the manufacture and sale of phosphoric acid and the phosphates, that they are justly considered as the highest authorities in this country, if not in the world, upon those articles.

The former, (Prof. H.) has made the subject of wheat and its conversion into bread, a life long study, and was the first to suggest the use of the phosphates in a cream of tartar substitute, whereby the nutritious elements which are taken from the flour in bolting are restored.

The phosphatic preparations of the above firm have received the hearty recommendations of the highest medical and chemical authorities in this and other countries, so that their healthfulness and utility are beyond question. They have been put upon the market in various forms, the latest, and one which will undoubtedly prove the most popular, being "Prof. Horsford's Phosphatic Baking Powder," which is packed in tin cans like the ordinary baking powders, and is to be used in the same way. It is made from Prof. Horsford's Acid Phosphate in powdered form. It contains the same ingredients, mixed together, as the famous Horsford's Bread Preparation, is fully equal in strength, if not superior, to any of the ordinary first-class baking powders, and is sold at reasonable prices.

The Works have issued for the present year, their "Horsford's Almanac and Cook Book," which is sent free on application, and will be found well worth sending for.

## MISCELLANEOUS.

## IT'S THE SAME THE WORLD OVER

The narrow, contracted, dark Clothing stores, with a different price for every customer, are the ones that do the business—if you take their word for it. Most of their suits are all wool—if you take their word for it. They give the lowest price, if you take their word for it and then you can get the goods for one half the amount if you dare to make the offer. As compared with such concerns in Janesville, our store is a Palace, but we charge nothing extra for goods on that account. Our assortment of Goods is three times greater than these Magic Lantern stores can show you, and it costs you nothing to see them. No wear and tear on your boots walking to the door to get a glimpse of the goods. We carry the best goods there are made in every department, and you can find them at no other store in the city.

We are the only firm in this part of the State that has all goods marked in plain figures with no deviation under any circumstances. These facts should merit the trade of all who have no axes to grind, if our prices are right, and that they are right and lower than can be found elsewhere in this vicinity; we shall demonstrate to your entire satisfaction in our next.

M. C. SMITH & SON.

T. A. CHAPMAN & CO.

## ALONE!

I have no time to bandy epithets with small or belligerent concerns, because I am now alone in business, and all my time is required to wait upon customers and superintend my present Mammoth Stock of

## Ready-Made Clothing, Cloths,

HATS, CAPS, Etc., Etc.

## AT MYERS HOUSE CORNER,

Here is where you find good goods at the lowest prices, as I demonstrate to those who may favor me with their custom, employ none but competent assistants, both Cutter and Sewer. MR. KNEFF is too well known as a first class cutter to require special laudation or insignificant puffing. The many old customers of the well established STAR CLOTHING HOUSE are therefore cordially invited to continue their patronage; and to all persons, of whatever race, creed or color, who jointly offer our best services, wherever they shall call upon us, assuring them that that Fair and Square Dealing is our motto.

F. SONNEBOR.

## CARPETS!

Before we make our Spring Announcement of DRY GOODS, which are now on the road, we wish to say a word about one of the largest and finest stock of CARPETS ever shown in Janesville. We intend to make this department one of our leading. We will have opened April 5th, 50 pieces of the celebrated Roxbury Brussels, and other brand all new. 10 pieces of the best makes of Bod Brussels at 15c a yard less than last year's price. 100 pieces of all makes in Ingrains, selected from the best stocks in the eastern markets. Mr. Cummings' long experience in this line is a guarantee enough to the citizens of Janesville of the quality and styles of our Carpet stock. We will sell and make up Carpets at the price of just cutting in Chicago or Milwaukee—in fact we will sell you Carpets ready made at Chicago prices not made No one in justice to themselves and pocket can buy Carpets anywhere else. We would say to parties wanting Carpets made to give us an early call, as it takes some time to make them.

San Francisco has not yet been cured of its love of titled aristocrats, and therefore continues to be a victim of pretensions. The latest of these was a clever rogue who called himself Count Von Schiller. He made acquaintances in snobbish society and then pretended to fall dangerously ill. He dictated a letter to his father, directing him how to make a remittance of \$6,000, and induced the young man who acted as his amanuensis to lend him \$1,000 until the money came. Then he feigned a belief that he was about to die and made a will in which his San Francisco friends were liberally remembered. On the strength of these bequests he borrowed numerous small amounts. He has at last been exposed and arrested.

The Dubuque Times tells a long and romantic tale of how a young lady in that city dreamed three times that she visited this city and met here in a big hotel a very attractive gentleman, whom she subsequently married; of how six years later she did visit this city and accidentally met at the rooms of a friend in one of our hotels the very man who had been the hero and subject of her dreams; of how they were indeed married, and lived happily ever afterward. A Chicago girl, says the Tribune, had a somewhat similar experience. She dreamed once that she visited Dubuque, and married a man there. The next morning she resolved never to let mince-pie again before retiring. She lived happily ever afterward.

It is said that pencil drawings may be rendered indecipherable by this simple process: Simply warm a sheet of ordinary drawing paper, then place it carefully on the surface of a solution of white rosin in alcohol, leaving it there long enough to become thoroughly moistened. Afterward dry it in a current of air. Paper prepared in this way has a very smooth surface. In order to fix the drawing the paper is to be warmed for a few minutes. This method may prove useful for the preservation of plans or designs, when the want of time or any other cause will not allow of the draughtsman reproducing them in ink. A simpler plan than the above, however, is to brush over the back of the paper containing the charcoal or pencil sketch a weak solution of white shellac in alcohol.

PUNGENT PARAGRAPHS.

—Time is the great healer. The men who were picking snow balls out of their ears yesterday will have forgotten all about it by July.—*Detroit Free Press.*

—The liberty of the press has been assailed in Michigan. It is proposed by the Legislature to make hugging a girl against her will a penal offense.—*Chicago Tribune.*

—When a young man attempts to court a fair damsel, and she tells him that she has a "supreme contempt" for him, should he be arrested for "contempt of court?"—*Toronto Grip.*

—"Proposals for carrying the mails," mused Miss Mary, aged thirty-six, looking up from the newspaper. Then she cried, in stormy tones, "I'd like to know who's to carry the females!"—*Breakfast Table.*

—An insane physician has just been discovered at the South End. He told his patients that they were not very sick, and went to work and cured them of what little did ail them, in very quick time. He has been sent to the asylum.—*Boston Post.*

—It is unaccountable, but it is a fact nevertheless, that a boy will listen more attentively to a recital of his father's youthful escapades, and remember it longer, than he will all the moral teachings and exhortations that his sire may indulge in a year's preaching, and he will think no less of the old gentleman on discovering that he has been a boy, like himself.—*Boston Transcript.*

—"Do you like my new bracelets George?" asked Julia holding up her shapely arms so that he could look at the bracelets with his moustache. And he passed his strong arm tenderly around her little waist, and as he fondly submitted her corset-rod to a hundred and twenty-five pound test, lateral pressure, he whispered in her ear: "O yes, I am fond of jewelry." But she didn't see it and went on talking about the bracelets and how much they cost. "Sweet girl," thought George, with a flush of mortified pride, "but she lacks intellectuality!"—*Burlington Hawk-Eye.*

—It is probable that the scheme which was proposed first by Mr. Shaw Lefevre, and which has been advocated by Mr. Bright, will form the basis of the contemplated settlement of the Irish land question by the present English Government. All landowners ready to sell will be given debentures bearing three per cent, for their property. Their tenants will be charged four per cent, during a term of years—three per cent, to pay interest on the debentures, and one per cent, to act as a sinking fund, so that at the end of the term the land will become the property of the present occupier. In addition to this, large tracts of waste lands will be bought and let in lots of thirty or forty acres to peasants, and these lots will become the property of the peasants after a certain number of payments.

—A statistician in *Harper's Magazine* shows that, as to the total valuation of the National wealth, the United States stands third, Great Britain and France only leading. In average annual income per inhabitant this country rivals Great Britain and leads all others. In annual accumulations we are far ahead of all. At present the republic is growing rich at the rate of \$2,300,000 per day.

—Paste for chapped hands, and which will preserve them smooth by constant use, is made as follows: Mix quarter pound unsalted hog's lard, which has been boiled in common water, and then in rosewater, with the yolks of two new-laid eggs, and a large spoonful of honey. Add as much fine oat meal or almond paste as will work into a paste.

—An orange-grower in Florida says that aside from the loss of fruit there will be no loss by the recent storm. On the other hand, he says the trees will be benefited by the washing, while the thorough shaking up is only a wise provision of nature to impart new vigor to trees.

—A Boston bugler may blast away to his heart's content for hours and nobody calls him to account, but let a Boston drummer simply say "Dum it!" and somebody's feelings are injured at once.

—The scientists say that shutting the eyes improves the hearing. This is probably the reason, says the Buffalo Express, why some men always wink at you when you talk politics to them.

Straight to the bone yard people go who neglect too long the danger signal of approaching consumption, a hacking cough. But with Dr. Thomas' Electric Oil for a safeguard peril is averted. It is a superlatively fine remedy for rheumatism, piles, soreness, hiccups, etc.

MISCELLANEOUS.

YOU'RE ANOTHER.

One of those who wants to know where to get the most and the best goods for his money. It don't make any difference whether the sun shines or not, we keep getting in goods and selling them every day—except Sunday. We can, and do, and will sell goods for less money than any corner store in town.

WHAT?

We've got a light store but not a light stock. Our Boys' and Youths' Clothing cannot be equalled in this city. And talk about custom work! Why we have got to import more workmen! Only first-class hands need apply, for we won't have any but the very best work.

Remember the old stand three doors west of the Postoffice.
